JUSTIFICATION:

The Copper River personal use fishery is managed under direction of the *Copper River Personal Use Dip Net Salmon Fishery Management Plan* (5 AAC 77.591). The plan establishes the season from June 7 through September 30 and directs the department to establish weekly periods based on Miles Lake sonar counts. During May 30 – June 5, there were 167,959 salmon counted past the Miles Lake sonar. The preseason projection for this period was 112,681 salmon, which results in a surplus of 55,278 salmon. Copper River sockeye salmon migratory timing and the previous five-year average harvest and participation rates indicate sufficient numbers of salmon available to allow 168 hours of fishing time during the week of June 13 – 19, an increase of 12 hours from the preseason schedule.
