2022 NEETS BAY TERMINAL HARVEST AREA FISHERIES ANNOUNCEMENT

The following information details the Southern Southeast Regional Aquaculture Association (SSRAA) Neets Bay Terminal Harvest Area (THA) commercial fishing open waters and fishing schedules for the 2022 season.

SSRAA is forecasting total runs of 440,000 summer chum, 6,600 Chinook, 127,300 coho, and 51,000 fall chum salmon to the Neets Bay THA.

The Neets Bay THA (101-95) consists of those waters east of the longitude of the easternmost tip of Bug Island at 131°39.14' W long (Bug Island line). The THA will **NOT** open in those waters of Neets Bay east of the longitude of Chin Point at 131°42.10' W long, until Friday, July 1, 2022. This expansion to Chin Point on July 1 is for troll gear only. This modification to regulation is an added measure to conserve Unuk and Chickamin Rivers Chinook salmon that are transiting the area during this time. The closed waters at the head of the bay are those waters east of 131°29.86' W long, until the barrier net is in place; at that time, the closed waters are those waters east of the barrier net.

Troll Fishery

Salmon may be taken in the Neets Bay THA by troll gear from 12:01 a.m., Wednesday, June 15, through 11:59 p.m., Wednesday, July 6, 2022. The Neets Bay THA will expand to the longitude of Chin Point at 131°42.10' W long, on Friday, July 1, 2022, for troll gear only. Additionally, the Neets Bay THA east of Chin Point and west of the Bug Island line will be **closed** for Chinook retention (Figure 1).
