Bristol Bay Eastside Salmon Update #4

This is the Alaska Department of Fish & Game in King Salmon with an update for permit holders in the Egegik District. The time is 12:00 noon and the date is Monday, June 20, 2022.

Harvest from the June 19 fishing period totaled 44,000 fish, bringing the cumulative to 195,000. Escapement through the Egegik tower was 30,000 fish on June 19, which brings the season total to 49,000. Data from the inriver test fishery indicates that passage into the river has slowed. The department will wait to see initial harvest data from this evening's fishing period before announcing the next opportunity.

Egegik District fishermen should stand by at 9:00 a.m. Tuesday, June 21 for the next possible announcement.

This has been the Alaska Dept. of Fish & Game in King Salmon.
