All other caribou hunting regulations in Units 20 and 25 are not affected by this emergency order.

**JUSTIFICATION:**

The harvest quota for the fall 2021 Fortymile caribou hunt is 4,500. The Fortymile hunt area is divided into 4 zones within the RC860 registration hunt area and the quota is further allocated within these zones. The current reported harvest for all zones is 2,079, leaving 2,421 caribou remaining in the fall harvest quota.

The majority of zones 1 and 4 encompass a hunting area with a low-density moose population. This population could be negatively impacted if the presence of caribou attracted a high number of hunters during the 1–15 September moose season. Therefore, zones 1 and 4 were previously closed by emergency order during the moose season. With additional harvest quota remaining for the fall hunt, and to provide additional harvest opportunity for Fortymile caribou, zones 1 and 4

will reopen on 16 September. The state caribou hunting season (RC860) remains open in Zones 2 and 3.
