Inset: Location of existing FAA Structures

Existing Equipment Building

The existing locations PLO 2451 and 44-LD-513 (ROW) are shown in purple, these are based on the legal description. The legal descriptions for these two features do not encompass all existing FAA structures, as confirmed by the on-the-ground GPS readings.

The legal description for PLO 2451 places it entirely within Izembek Lagoon. The legal description for 44-LD-513 does not properly connect it to PLO 2451, nor does it describe the existing road.

Existing tower and guy lines

Existing gravel pad for installation of Volcom whip antenna.
