RE: Huntington conflict clarification on proposal 243

Board of Fish through Chairmen Johnstone:

Respectfully, I'd like to clarify that board member Huntington is not in conflict of interest to vote on proposal 243. It has been said he is in conflict of interest based on the fact that he sits on Alaska Federation of Natives (AFN) board. I submitted a request for agenda change to the board of fish, which was subsequently addressed during the October 2012 work session. My request for agenda change was supported by AFN.

The board declined my request for agenda change, and generated its own proposal (243). I'd like to mention AFN did not support or comment on proposal 243. This should be brought to the board's attention, and clarify board member Huntington can vote on proposal 243.

Sincerely,

Aaron Bean
