KC 173

Members of the Alaska Board of Fish

I wish to pull support for

proposal 118. 118 would let N-K Beach fish a limited fishery the first week of July.

This section 244-32 should be opened at this time to harvest Kasilot sockeye, yet with a pre-season forecast of 19,000 King salmon, I do not feel this proposal is appropriate at this time.

thank you

GARY HOLLER
