

RC 024

Alaska Board of Fisheries
In regards to Proposal 63
December 2, 2015

Barbara Nunn
Dillingham, AK
Clarks Point/Igushik Setnet Fisherman/Permit Holder

Chairman Kluberton and Members of the Board:

I am a Dillingham resident and Bristol Bay setnet fisherman and permit holder. I currently fish at Clarks Point and am in **Support of Proposal 63**. My site is one that would be affected by this proposal if it were to pass. The mudflats over the years have changed and on the smaller tides there isn't enough water to fish. By extending the limit out to 750 ft this would allow for myself and others in this area to have enough fishing time for a productive setnet season.
