RE: Proposal 68- Repeal Wood River Sockeye Special Harvest Area Management Plan

Dear Alaska Board of Fisheries,

We support proposal 68 to repeal the Wood River Sockeye Special Harvest Area Management Plan. If the Wood River Special Harvest Area remains open for the commercial fishery, we support RC 145 regarding the closed area in front of our subsistence/campsite. As stated in RC 145, we would like to move the upstream Muklung closed water boundary line to 200 feet above the wooden scow on the beach near the Hoseth property/subsistence campsite. This would protect our subsistence way of life. We would be willing to assist the department to get the necessary coordinates for the district boundaries.

Thank you,

Gayla Hoseth
