

Harvest comparison as it appears on ADFG Sportfish website. Note that chart shows Sportfish Harvest of Kenai Kings below Soldotna Bridge to ALL Kings Caught in the ESSN fishery. This data is extremely misleading to many people to compare harvest between the two fisheries.

Summary of cumulative raw information collected thru Aug 30 (by year) that is used to assess Kenai River Chinook run strength.

Year	Number Chinook Captured in Test Net at river mile 8.6	Number Sockeye Captured in Test Net at river mile 8.6	Chinook Sport Harvest Below Soldotna Estimated by Creel Survey	Cumulative ARIS Sonar Estimate	Commercial Set Net Harvest
2002	1,171	1,915	11,482	ND	9,478
2003	1,446	1,464	13,837	ND	14,810
2004	1,077	749	14,494	ND	21,616
2005	1,027	730	15,312	ND	20,968
2006	1,330	566	13,190	ND	8,691
2007	780	2,107	9,258	ND	12,128
2008	895	1,435	9,272	ND	6,409
2009	559	1,798	7,378	ND	5,588
2010	311	3,454	5,375	ND	7,038
2011	472	3,548	6,458	ND	7,697
2012	345	3,685	102	ND	667
2013	200	2,072	1,577	19,373	2,630
2014	187	4,201	539	16,871	1,676
2015	239	1,103	3,896	23,406	7,306
2016	219	1,230	6,504	22,535	6,413
