

BSPCC - Bering Sea Pot Cod Cooperative

January 14, 2020

RE: Proposal 283

Dear Chairman Morisky and Members of the Board

I am commenting today on behalf of the Bering Sea Pot Cod Cooperative (BSPCC). The BSPCC is a trade association that represents permit holders in the BSAI Pcod Pot $\geq 60'$ CV sector. We are concerned that Proposal 283 is being taken out of cycle without sufficient public notice. Due to this timing there are many stakeholders that were either not aware of the proposal or had insufficient time to analyze and provide comments prior to the meeting. I understand that not even the Board's Advisory Committees have weighed in on this issue. We respectfully request this proposal be tabled until this issue is in cycle for the Board.

Sincerely,

Craig Lowenberg
Executive Director
