

RE: Passage 283 as amended 01/15/2020

RC 134

Pot vessels from over 60 to 100 ft

Aleutian Islands Participation history

1 vessel participated between 2008-2019 one vessel participated in the AI GHL fishery.

This vessel delivered once exclusively in 2019 during a 43 hour opening that happened March 15th due to the trigger in regulation.

I respectfully submit the above information as I feel the amended language moved too far away from the intention of the original proposal.
