

**PROPOSAL 112**

**5 AAC 21.359. Kenai River Late-Run King Salmon Management Plan.**

Remove gear restrictions in the Upper Subdistrict commercial set gillnet fishery when the use of bait is prohibited in the sport fishery, as follows:

5 AAC 21.359 (e) (3) (A)

(i) DELETE

(ii) DELETE

(iii) DELETE

**What is the issue you would like the board to address and why?** The current restriction to set net gear have not been used and are unproven. When openings are warranted all setnet gear is needed to harvest a limited opening. A reduction of 3.5 feet of linear gear does little to conserve king salmon when they are present.
