

*The Board of Game deferred proposal 100 as amended to apply statewide from the January 2022 Central and Southwest Region meeting to the March 2022 Statewide Regulations Meeting.*

**PROPOSAL 100**

**5 AAC 92.095. Unlawful methods of taking furbearers; exceptions.**

Remove the requirement that traps and snares for beaver be submerged in Unit 16 as follows:

For a solution remove the restriction in the trapping regulations on page 31 in Unit 16 that states a trap must be submerged.

**What is the issue you would like the board to address and why?** For fall beaver trapping. I would like to change the part that snares and traps must be submerged from September 24 - November 9.

During the fall on the river, water fluctuates and usually goes down. An example would be you set a trap that is submerged. The next day you come back and water has dropped over six inches so the trap is exposed. You now have an illegal set trap because the trap is not submerged.
